PROGRAMME DETAILS

2nd Edition of the National Conclave on Environmental Services

Friday, 3 July 2026 · 2:00 PM – 6:00 PM

Deputy Speaker Hall, Constitution Club of India, New Delhi

The Services Export Promotion Council, Under the aegis of ministry of commerce, is pleased to announce the 2nd Edition of the National Conclave on Environmental Services. Building on the success of the first edition, this Conclave will convene policymakers, industry leaders, and stakeholders to deliberate on emerging opportunities and challenges in India's environmental services sector.

Preamble: The Current Scenario

Various Trade Agreements being signed by India with partner countries are increasingly shaping the landscape of international trade and services exports. In sectors such as renewable energy, sustainability consulting, carbon accounting, clean engineering and technology, strategic trade agreements can significantly improve market access and global competitiveness.

At the same time India's transition toward clean energy is being driven by rapid developments in solar power, battery storage technologies, and electric mobility solutions. Though Indian enterprises are going global at a fast pace, the challenges related to supply chain resilience, critical mineral dependency, financing, technology access, domestic manufacturing capacity, and regulatory alignment continue to impact the sector's future significantly.

By convening experts and leaders from across energy and sustainability ecosystem, this conclave will serve as a catalyst for advancing sustainable practices and creating a road map of focused export strategy after India -EU FTA

Objectives

- › Discuss challenges and opportunities emerged after India–EU Free Trade Agreement.
- › Find strategies for monetising the clean energy integration into the business for revenue gains.
- › Showcase successful case studies involving **women leadership** in export-oriented initiatives and strategies.

Key Themes

- › Role of India-EU FTA in enhancing competitiveness of services exports to Europe, especially in energy and sustainability sectors
- › Solar, Battery and Green Mobility (EV) exports to European Union: Challenges and Opportunities
- › Climate Finance and Indian Carbon Market (ICM) including Carbon Credit Trading Scheme (CCTS) and Voluntary carbon market (VCM).

The Attendance

 <p>Industry Leaders & Executives Renewable Energy & Green Mobility sectors</p>	 <p>Government & Policymakers Representatives & regulatory authorities</p>	 <p>EU Stakeholders Representatives from EU delegation and FEBI</p>	 <p>Academics & Civil Society Researchers, consultants & sustainability professionals</p>
---	--	---	---

Expected Outcomes

- › Get a clear answer to “**how to leverage India–EU Free Trade Agreement (FTA)**” and align your business to access EU market with greater economic perspective.
- › **Discuss challenges** and help in building policy recommendations to be presented to relevant government authorities.
- › **Meet the representatives of European Union** and explore opportunities for partnerships and collaborations among diverse stakeholders
- › **Identification of actionable strategies** for monetising the clean energy usage into your business operations.

These green interventions will significantly boost trade statistics and GDP, accelerating India towards PM Modi's vision of Viksit Bharat 2047.

Register Now and contribute in shaping the future of environmental services.
