

2nd Edition of the

# National Conclave on Environmental Services

Friday, 3rd July 2026 | 2:00 PM – 6:00 PM IST

Deputy Speaker Hall, Constitution Club of India, New Delhi

## PROGRAMME DETAILS

# 2<sup>nd</sup> Edition of the National Conclave on Environmental Services

Friday, 3 July 2026 · 2:00 PM – 6:00 PM

Deputy Speaker Hall, Constitution Club of India, New Delhi

The Services Export Promotion Council, Under the aegis of ministry of commerce, is pleased to announce the 2nd Edition of the National Conclave on Environmental Services. Building on the success of the first edition, this Conclave will convene policymakers, industry leaders, and stakeholders to deliberate on emerging opportunities and challenges in India's environmental services sector.

### Preamble: The Current Scenario

India's Free Trade Agreements (FTAs) and Preferential Trade Agreements (PTAs) are increasingly shaping the landscape of international trade and services exports. In sectors such as renewable energy, sustainability consulting, carbon accounting, clean engineering and technology, strategic trade agreements can significantly improve market access and global competitiveness.

At the same time India's transition toward clean energy is being driven by rapid developments in solar power, battery storage technologies, and electric mobility solutions. Though Indian enterprises are going global at a fast pace, the challenges related to supply chain resilience, critical mineral dependency, financing, technology access, domestic manufacturing capacity, and regulatory alignment continue to impact the sector's future significantly.

## Format :

The conclave will feature keynote presentations, panel discussions, and networking sessions. Participants will engage with industry experts, share experiences, and explore potential collaborations.

### Objectives

- › Discuss challenges and opportunities emerged after several FTAs and PTAs signed between India and global economies.
- › Showcase successful case studies involving initiatives and strategies through best-practice sharing.
- › Create a platform for stakeholders to network and collaborate on RE and green mobility projects.

### Key Themes

- › Role of India's FTAs/PTAs in enhancing global competitiveness of services exports — especially in energy and sustainability
- › Future of Solar, Battery and EV in India: Challenges and Opportunities
- › Climate Finance and Indian Carbon Market (ICM) including CCTS and VCM

## The Audience

<b>Industry Leaders &amp; Executives</b> Renewable Energy & Green Mobility sectors	<b>Government &amp; Policymakers</b> Representatives & regulatory authorities	<b>Academics, NGOs &amp; Civil Society</b> Researchers, consultants & sustainability professionals
--	---	--

*By convening experts and leaders from across sectors, this conclave will serve as a catalyst for advancing sustainable practices and fostering a culture of responsibility and accountability.*

### Expected Outcomes

- › Aligning and equipping the industry for leveraging trade agreements like FTAs/PTAs etc.
- › Opportunities for partnerships and collaborations among diverse stakeholders
- › Identification of actionable strategies for integrating green services into business operations
- › Key policy recommendations to be presented to relevant government authorities
- › Promoting the understanding of best practices across the alternate energy services sector

👉 So if you come from any of these categories, we invite you to join the conversation and help shape the future of environmental services.
